This action is in response to the amendment and terminal disclaimer filed 4/28/05.

Terminal Disclaimer

1. The terminal disclaimer filed on 4/28/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US006673694B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 31 is canceled.

Claim 31 is drawn toward a non-elected invention. The election made without oral traverse on 12/28/04 and confirmed in the paper filed on 4/28/05.

Reasons for Allowance

3. Claims 1-23 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Art Unit: 2813

Claims 1 and 23 are allowed for reasons set forth by the applicant in the remarks filed 4/28/05. In particular, the amendment limits the structural etch (of step f) to be after removing the dielectric layer (step e). This limitation, in combination with the other limitations of claims 1 or 23 is not taught or suggested by the prior art of record. Hays (US 6,277,666) performs the structural etch prior to removing dielectric material.

Claims 2-22 are allowed as being properly dependent upon allowed claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David S. Blum whose telephone number is (571)-272-1687) and e-mail address is David.blum@USPTO.gov.
